STUDENTS EARN EXCELLENT AND SUPERIOR RATINGS AT DISTRICT SCIENCE FAIR

On Tuesday night the much anticipated awards were finally announced for this year's district science fair. Students from seventh and eighth grade spent months preparing for this virtual event in which they had to create a lengthy video that was viewed by their judges in addition to their written report. Our young scientists represented IWA with honor and distinction.

Congratulations to the following students who were awarded a **RATING OF EXCELLENT**:

From front left: Priyanka K, Shivani A, Maya C, Genevieve R

We also put our full support behind the students who earned a **SUPERIOR RATING** and will be advancing to the State Science Fair this Spring. We wish you the best!

WARRIOR TEACHER OF THE WEEK

This week our coveted helmet award is being given to a teacher who demonstrates the warrior charism of being **Accountable**.

This teacher is an alumni of IWA and always puts forth 100% effort. Throughout the year, she helps facilitate our students in the Spelling Club. Although the spelling competition is over, she continues to meet with two OC members of the club, practicing words with them. They meet before 7:30 a.m. through a Google Meet.

Most recently, her students have been involved in a STEAM project, focusing on how to bring back hot lunches during a time when we have many restrictions due to COVID. The students have interviewed the administration, worked with local pizza parlors, and will have their first hot lunch in May.

Thank you Ms. Kaminski for always going above and beyond in the classroom and in our school! Your love of IWA has impacted us all.

Congratulations to Warrior Kaminski!

FULL STEAM AHEAD

Mrs. Rolle's Upcycling Carnival was a Hit!

Our Kinder Prep, Kindergarten, and First Graders all had the opportunity to visit the Upcycling Carnival today, on Earth Day. This student designed carnival, created out of recycled materials,

could have given any real carnival a run for their money! Events included a game board, musical instruments, bowling, ring toss, and a ping pong game. STEAM learning at its best!
