## IWA SUMMER CAMPS

Week 1 of Camp S'more for our youngest Warriors kicked off this week with Ms. Vacanti! Activities on the first day included STEM challenges using marshmallows and using their senses, while campers had to create their very own pretend campfire and s'mores on day two. Campers also enjoyed a virtual field trip to a campground for a story and danced to a song about making s'mores. They may have packed up their sleeping bags for the weekend, but they'll be hitting the trails and lakes next week!

Students in Mrs. Micheli's Programming Jam camp this week participated in summer-themed programming and Lego Wedo projects. The students programmed Olympic Trivia and soccer games in Scratch and also built and programmed Lego models, such as a ferris wheel, a spinning ride, a draw bridge, a forklift and a crane.
